

How to Apply for Equitable Tuition

Deadline for Returning Families: December 15

Deadline for New Families: January 15

The Application Process

Derryfield partners with Clarity Tuition in our equitable tuition process. Clarity offers a streamlined platform for families to share secure financial information, and for Derryfield to assess a family's equitable tuition. Most families are able to complete the Clarity Application in less than 30 minutes. The application is also mobile-friendly and does not need to be completed in a single sitting; you can always save your progress and return later.

Admission, equitable tuition, and merit decisions are released on March 10. Admitted families receive virtual acceptance packets with financial details included. To reach the Equitable Tuition rate for your family, Derryfield uses information from your Clarity Application and taxes as a starting point, but also considers our school policies, practices, and budget.

How to Complete the Equitable Tuition Application in Clarity Tuition

- Go to clarityschools.com and click "Sign In" to create your account.
- Start with household & applicant information. Select The Derryfield School.
- Sign and submit a Form 4506c to give Clarity permission to pull your prior year tax returns. (This process is similar to the FAFSA federal college financial aid application, and is fast and secure.) **The address information in this section must exactly match the address listed on your most recent Form 1040. If your current address does not match the one listed on your most recent Form 1040, please indicate that your address has changed in the last two years.**
- Complete your financial information, including income, expenses, assets, and debts. You will enter information from your 2021 tax return.
- The app fee is \$55 per household and covers all of the Clarity schools to which you are applying.
- Check the "Document Requests" panel on your portal to upload your K1 or Business taxes (if applicable.) Your 2021 1040 and W2s will automatically upload for you with the 4506c form.

Tips

- To the best of your ability, enter accurate information on assets such as bank accounts, investment portfolios, home value, and balances on car loans, student loans, etc. You might need your 2021 tax return or to log into some accounts to gather the information.

Need more help?

We encourage you to use our complete Family Application Guide as you complete your Clarity Application. If you do need more help, feel free to contact us via email at: support@claritytuition.com
